

**Leadership Program**  
**Class Notes, July 28, 2022**

**HOMEWORK (copied from the Recordings & Homework page):**

1. Watch the video “Interpreting Midpoint Structures with Vibrational Astrology” at <https://youtu.be/HeUAtGnmoE4>

You watched this in the first course too, but watching it again will be helpful.

2. Make a 10-minute video of an interpretation of someone’s chart – can be one or more vibrations. Explain how you see this operating in the person’s life. (7 minutes to 15 minutes only!)

**TOPICS FOR TODAY:**

See what vibe your Sun-Moon is in with the Harmonic Aspect Grid.  
Let's interpret it! Continue with all pairs of planets

Example of strength:

Given: Sun square Moon with a 1 degree orb.

What is the strength of this aspect?

Answer: .75

Given Sun square Moon with a 3 degree orb, what is the strength?

Answer: .25

IF I HAVE A MAXIMUM ORB OF 8 DEGREES (INSTEAD OF 16

DEGREES) IN THE HARMONIC CHART, WHAT IS THE STRENGTH OF SUN SQR MOON WITH A 1 DEG ORB?

Answer: The 8 degree orb for conjunctions means squares have a 2 degree orb. The strength of .50.

SIMPLE: If a square has a 2 degree maximum orb, then a 1 degree has strength of .50.

\*\*\*\*\*

1. Set orb for Harmonic Aspect Grid to 4 degrees.
2. Identify 1 or more aspects that are strong.
3. Look at the Vibrational Chart.
