

Leadership Program

June 2, 2022

1 2 3 5 7 11 13 17 19 23 29 31

2 and 3 are prime but some mathematicians call them sub-primes.

These are called Twin Primes:

5 7

11 13

17 19

29 31

23 is calculated risk.

It is a "gambler" using some advantage to help them. Not random gambling or guessing.

They take a risk that other people are not taking because they think others are not seeing the possibility that they see. Aware of the choices

we make and they are sensitive to seeing new possibilities.

Every vibration is related to an existential fact.

What are the orbs for aspects IN A VIBRATIONAL CHART?

Conj = 16 deg

Opp = 8 deg

Square = 4 deg

Trine = 5 deg 20 min

Sextile = 2 deg 40 min

In a natal chart the orb is about 1 degree for any aspect (very roughly)

1. Installing Frequency Finder.
2. How to email.
3. Circle things with Paint.
