

# 1st Course, 7th Class

## Wednesday, February 22

1. Homework: Similar to the previous weeks. There are a lot of videos. I won't go over the material in these videos in any detail unless you have questions. However, I highly recommend that you watch all of these videos and listen to them clearly because they will enrich your understanding of how we have arrived at what VA is now and where we are heading. This can help enormously in your professional pursuits with VA.

We have the usual homework of writing a paragraph or two, or making a 5-minute to 10-minute video. I also recommend rewatching some of the homework videos or class recordings. The 2nd time you watch you may learn as much as you did the first time through it!

2. Super Symmetry. Let's look at some of your charts and see if we find some.

First example: Jehan's birth chart.

Second example: Phillip's HPL #1

Third example: Michael 13V (probably in HPL #1 as 13x3 13x6)

Hi Phillip

19:36:44 From Subhashish(Subs) Acharya to Everyone:

Is recording also Moon Saturn?

19:37:52 From Kristen Rodzos to Everyone:

Subs, lol yes, not important (Saturn) right? We needed/need Neptune...we'll remember this because of the moon, hopefully?

19:53:26 From Subhashish(Subs) Acharya to Everyone:

Jehan - is perhaps always looking for meaning, which is deep, in every moment/interaction. Correct, Jehan?

19:55:42 From Subhashish(Subs) Acharya to Everyone:

Saturn Pluto - reminds me of the Kill Bill and Mortal Combat movies. Everyone hurts themselves and rises ... again to fight!

19:56:20 From Jehan to Everyone:

Replying to "Saturn Pluto - remin..."

Yes, true 😊

19:57:39 From Subhashish(Subs) Acharya to Everyone:

Jehan, I suggest you join as a commander of an Army. Give the soldiers ... some hell!!!

19:57:44 From Subhashish(Subs) Acharya to Everyone:

I will be your advisor

19:58:01 From Jehan to Everyone:

Reacted to "I will be your advis..." with 😊

20:01:50 From Subhashish(Subs) Acharya to Everyone:

Jehan careful - after this session, you may be drinking ... alone 😊

20:03:51 From Kristen Rodzos to Everyone:

lol Subs! I think a lot of us have a Saturn, Neptune experience/aspects but yes the Moon too. How many of you have a Saturn / Neptune aspect in their chart? Just curious! The conjunction in Pisces is coming up!

20:13:31 From Jehan to Everyone:

Replying to "Jehan careful - afte..."

I'm actually almost never technically alone, as I do have a 13 year old daughter. Thank God, otherwise I would be alone a lot.

20:14:11 From Jehan to Everyone:

Replying to "Jehan careful - afte..."

I was responding to Subs. Drinking alone.

20:20:37 From Subhashish(Subs) Acharya to Everyone:

This session reminds me - The movie the Matrix. Morpheus must be - A Neptune conjunct Sat/Pluto Conj midpoint. He was obsessed about Neo! And only Neo!

20:33:57 From Subhashish(Subs) Acharya to Everyone:

Like Robert Frost - " Miles to go before I sleep" ... Richard?

20:47:14 From Fei to Everyone:

Uranus is the handle!! Excellent in spontaneous activities and full of enthusiasm. Such an awesome personality, Love to create things that are not replaceable. Avoid mediocrity

20:47:44 From Subhashish(Subs) Acharya to Everyone:

Normal is Boring - in 13th

20:48:12 From Michael Spremulli to Everyone:

Very true Fei and Subs.

20:48:25 From Fei to Everyone:

Not boring but will make it special, will find a way to make things special that no one can replace it

20:48:35 From Fei to Everyone:

That is 13

20:48:50 From Fei to Everyone:

Thanks for confirming Michael

20:53:05 From Subhashish(Subs) Acharya to Everyone:

@Michael - you watch patterns in the assessments, but do not manipulate it, correct?

20:53:10 From Subhashish(Subs) Acharya to Everyone:

This is a big match

20:58:04 From Michael Spremulli to Everyone:

Yes Subs, patterns are critical in interpreting assessments. Sadly, my 19 vib is weak. I had to learn by constant repetition.

21:01:57 From Subhashish(Subs) Acharya to Everyone:

Phillip - I suggest you get into Forensics and track down serial killers
